

Audio Video Editor

Description

A Hyderabad-based animation and visual design startup is building its team and looking for enthusiastic professional freshers to join them in a long-lasting journey.

Software: Adobe Premier Pro, Adobe After Effects, Adobe Audition

Responsibilities

1. Compositing

All visual effects or VFX skills,

should know about the depth of field requirements and what camera/ lenses were used to shoot the shots before you begin your work.

Taking care of things like colour correction, how specific shots will be adjusted with the rest of film, and what elements will make up our compositing, if we require a matte painting, and if any stock footage will be needed, etc.

2. Sound editing

Responsible for everything auditory what we require (Music, Foley , Dialogs sound effects etc.). *Designing* and creating an 'aural landscape' from scratch.

Selecting and balancing audios from hundreds of different sources to create desired effects and make the work of art speak to the viewer.

3. Video Editing

Editing, reviewing and polishing our work. doing just about everything that is vital to creating a successful animation.
